## Transmitter Selection Framework (TSF)

Topic	Feedback
How best can the IESO keep you informed of the TSF development work, and solicit your input on matters relevant to your community's interests?	I do believe it would be beneficial to the Community and the Members if IESO, would provide Community Engagement to our Members. Also to be informed of the Projects taking place in our Territory.
Are you interested in participating in the focused engagement sessions and/or 1:1 meetings with the IESO to share your community's feedback and perspectives?	I am the 3rd CEC in this Position. I feel I would need more Education in the Role as CEC. On a a Positive note, I would be really interested in participating. In the future.
For future transmission projects, how should the IESO think about valuing Indigenous participation? Which Indigenous participation models (e.g., equity partnership, training and employment, capacity funding, etc.) have you seen or experienced as effective for other projects, and why?	Employment and Training, Funding for Projects, Summer Student Opportunities in our Community for Highschool Students.
What do you believe has worked well and what hasn't worked well regarding your experience working with transmitters and/or partnering on electricity projects in Ontario?	I think everything so far has been working well with IESO. But as I stated before I believe I need more Education regarding CEC .
