

Member Vote and Rationale – Replacement of the IESO Settlement System

IESO Technical Panel, February 21, 2023

The vote to recommend the proposed market rule amendments (MR-00475) for consideration to the IESO Board of Directors passed unanimously at the February 21, 2023, Technical Panel meeting.

MR0475 - Replacement of the IESO Settlement System

TP Member	Vote and/or Rationale
Nick Papanicolaou (Consumer)	For
Indra Maharjan (Consumer)	For
Forrest Pengra (Residential Consumer)	Following a thorough review of MR-00475 I am in support of Voting to Recommend. Based on the lack of stakeholder feedback from around the TP table and from market participants, I feel there are no major issues with the rule. I appreciate the implementation of my grammatical revisions, as minor as they may be.
Emma Coyle (Generator)	For

TP Member	Vote and/or Rationale
Jason Chee-Aloy (Renewable Generators)	For
Jennifer Jayapalan (Energy Storage)	For
Vlad Urukov (Generator)	For
Robert Reinmuller (Transmitters)	Update is required to ensure the system is ready for the settlement changes. The replacement of the IESO Settlement System (RSS) implementation has to be managed not only by IESO but also by end users to ensure that there are no gaps impacting customers. Hydro One is supportive of this update and IESO should continue closing the implementation gaps as they are identified.
