³ The allocation of CCSAs is two thirds of the total annual FIT procurement target. This is further divided into one-third portions for each of the applicant types (Aboriginal communities, communities, municipalities and public sector entities). With respect to the one-third portion available to Aboriginal communities, two thirds is apportioned to those with First Nations participation and one-third is apportioned to those with Métis participation.

⁴ Participation Levels, CCSA eligibility and Municipal, Public Sector or Aboriginal Site Hosts have not been confirmed by the IESO. Determination will be made in Stage 3 of review (see section 4 of the FIT Rules, Version 4.0.1, for details). These numbers are solely based on Priority Points, Participation and CCSA eligibility applied for.

⁵ Having Municipal Site Host, Public Sector Entity Site Host or Aboriginal Site Host is not mutually exclusive from Participation Level.
