Subject: Webinar Invitation: MRP Energy Workstream - Intertie Transactions - Stakeholder Discussion

The IESO is inviting stakeholders to participate in a MRP webinar this **Thursday, June 7th** from **9:30 to 11:00 am**.

The purpose of this meeting is to provide stakeholders with an opportunity to ask the IESO additional questions regarding the [Intertie Transactions](#) presentation of the Energy work stream meetings from last week. During the engagement meeting on May 24, stakeholders engaged in a very productive exchange of ideas around intertie transactions. The IESO would like to offer additional time to engage in further conversations with stakeholders on this topic and answer questions. This particular webinar will be of most interest to traders in the Ontario market; however, all stakeholders who are interested in this topic are invited to attend.

The IESO will have the materials on Intertie Transactions from last week's presentation available during the webinar to support any questions and conversations. The IESO will not be presenting any new material. As such, this may be valuable for those seeking additional time to continue the discussion from last week if required.

If you are interested in participating, please register by emailing engagement@ieso.ca to receive the webinar details.

Thank you – Jason
