	Email: <u>[REDACTED]</u>

The IESO is posting a series of detailed design documents which together comprise the detailed design of the MRP energy stream.

This design document is posted to the following engagement webpage: <http://ieso.ca/en/Market-Renewal/Energy-Stream-Designs/Detailed-Design>.

Stakeholder feedback for this design document is due on **February 28, 2020** to engagement@ieso.ca.

Please let us know if you have any questions.

IESO Engagement

General feedback on the Detailed Design Document

CPC emphasizes that each detailed design element must be considered holistically to assess whether the complete framework achieves the desired end state and meets the IESO final design criteria. As such, the views and opinions expressed herein are subject to change based on new information, analysis or significant revisions to design elements as a result of the IESO’s remaining development and approval processes.

Design Document: Section	Detailed Comments (Areas of Support or Concern)
1. Introduction	CPC has no comments at this time.
2. Summary of Current and Future State	CPC has no comments at this time.
3. Detailed Functional Design	CPC is supportive of the IESO’s specific objective to leverage to the greatest extent possible the existing processes within the Authorization and Participation process.
3.3 Participant Authorization	CPC supports the IESO’s design decision to automatically include in the future day-ahead market all existing market participants authorized to participate in physical transactions in the current real-time market.
3.4 Transition into the Facility Registration Process	CPC has no comments at this time.
3.5 Dispute Resolution	CPC has no comments at this time.
4. Market Rule Requirements	CPC has no comments at this time.
5. Procedural Requirements	CPC has no comments at this time.
6. Business Process and Information Flow Overview	CPC has no comments at this time.
Appendix A	Please confirm whether virtual transactions will be facilitated via the IESO’s existing interface or whether another platform is expected to be introduced. CPC understands that the IESO may not currently have this information but would appreciate the IESO sharing this with stakeholders once a decision on this detail has been made.
