Location	Four Points by Sheraton Toronto Airport 6257 Airport Road, Mississauga, ON
Meeting Chair	Darren Matsugu –Senior Manager Market Design and Integration
Facilitator	Ryan King – Senior Stakeholder Advisor, Market Renewal

Time	Agenda Item
9:00 am	Introduction and Overview of Agenda
9:30 am	Single Schedule Market Pricing Issues –Intro The IESO will provide a brief overview of the modules which will be discussed in the fundamentals phase as well as an update on the progress and timelines of the engagement.
9:45 am	Module A: Energy Pricing This module will review the main SSM energy components including: establishing a reference location price, congestion component, loss component and supplier and intertie pricing
10:45 am	Break
11:00 am	Module B: Reserve Pricing This module will review the IESO’s operating reserve market and how reserve pricing has typically been designed in other single schedule market jurisdictions.
11:30 am	Module C: Pricing Constraint Violations This module will discuss how reliability constraint violations are currently applied to price in Ontario and other jurisdictions. It will also introduce which pricing choices Ontario may wish to reconsider as it moves to a SSM design.
11:45 am	Lunch
12:15 pm	Module D: Multi-Interval Optimization and Pricing This module will review the role and function of multi-interval optimization in determining dispatch instructions and prices under a SSM design.
1:00 pm	Module E: Pricing Operating Restrictions and Operator Actions This module will discuss where rules will be required to set prices in two situations that are not readily addressed by constrained pricing model runs: dispatch of suppliers with physical operating

Time	Agenda Item
	restrictions and operator interventions in the physical dispatch.
1:30 pm	Questions, discussion and next steps
2:00 pm	Adjourn
