

# Design Element Options

Phase 2 – Session 5  
Single Schedule Market Project

---

December 11, 2017

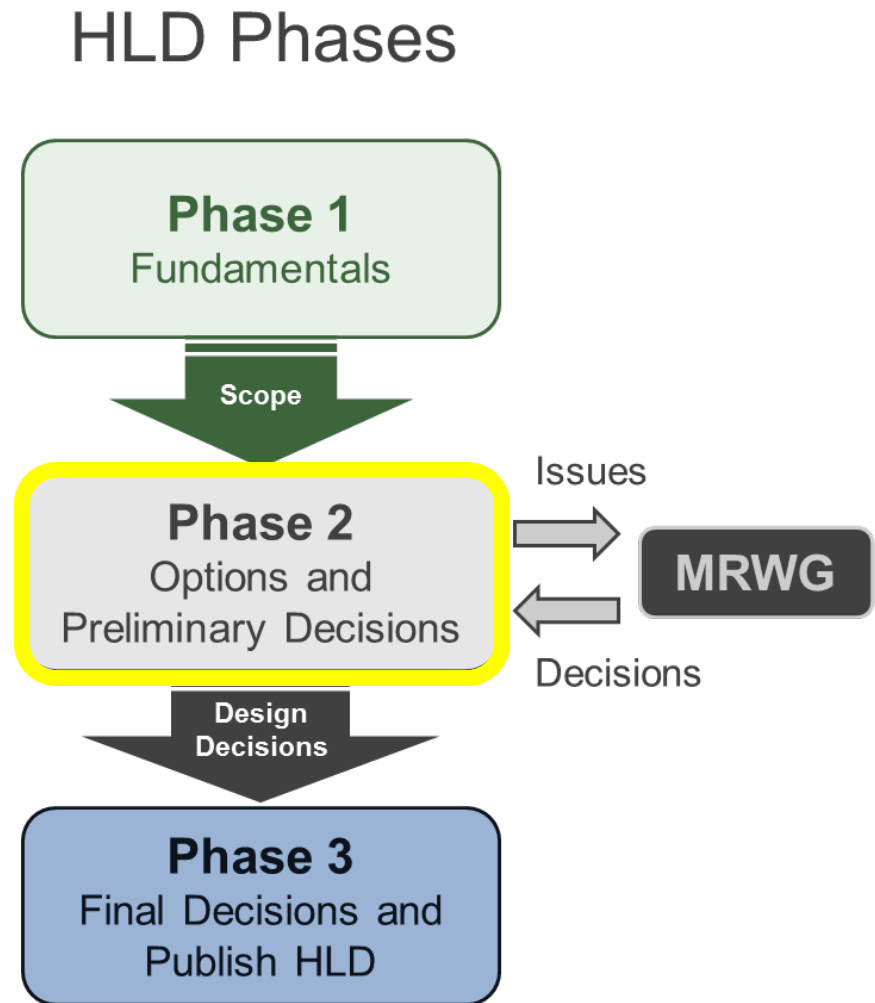

# Today's Agenda

1. Update of the work plan for Single Schedule Market (SSM) stakeholdering
2. Discussion of analysis related to action items from the November SSM session and preliminary decisions on:
  - Intertie Congestion Pricing
  - Constraint Violations
  - Operator Actions
  - Price Setting Eligibility

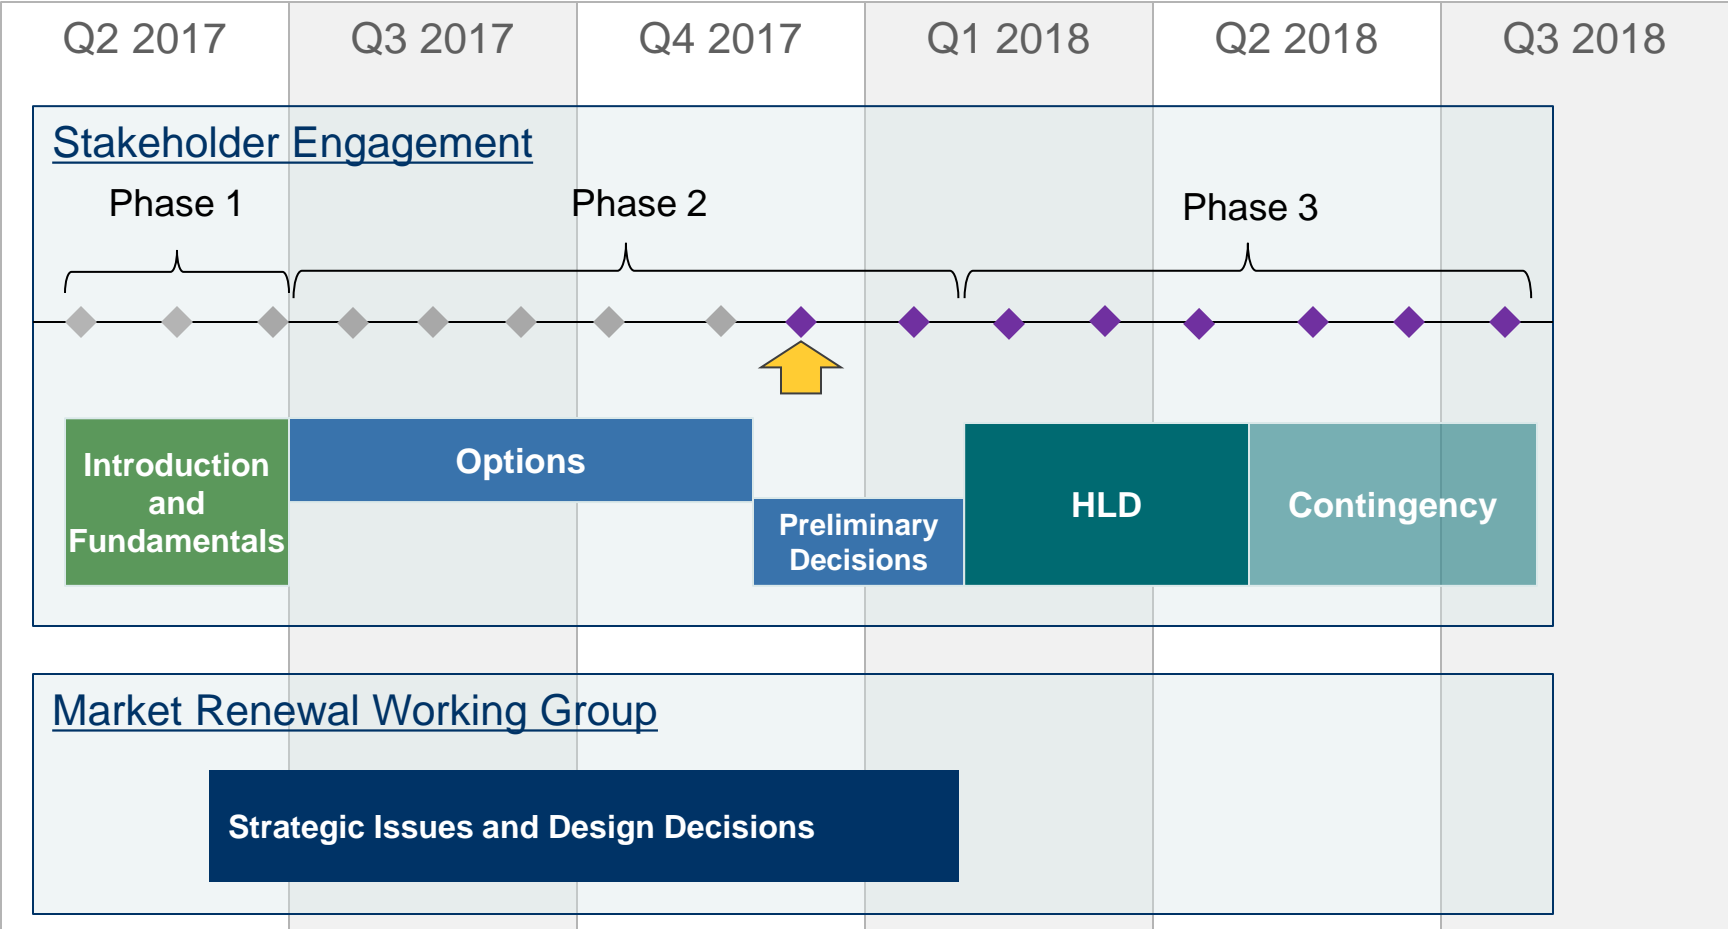

# WORK PLAN FOR SINGLE SCHEDULE MARKET STAKEHOLDERING

# Phases of High Level Design - Reminder

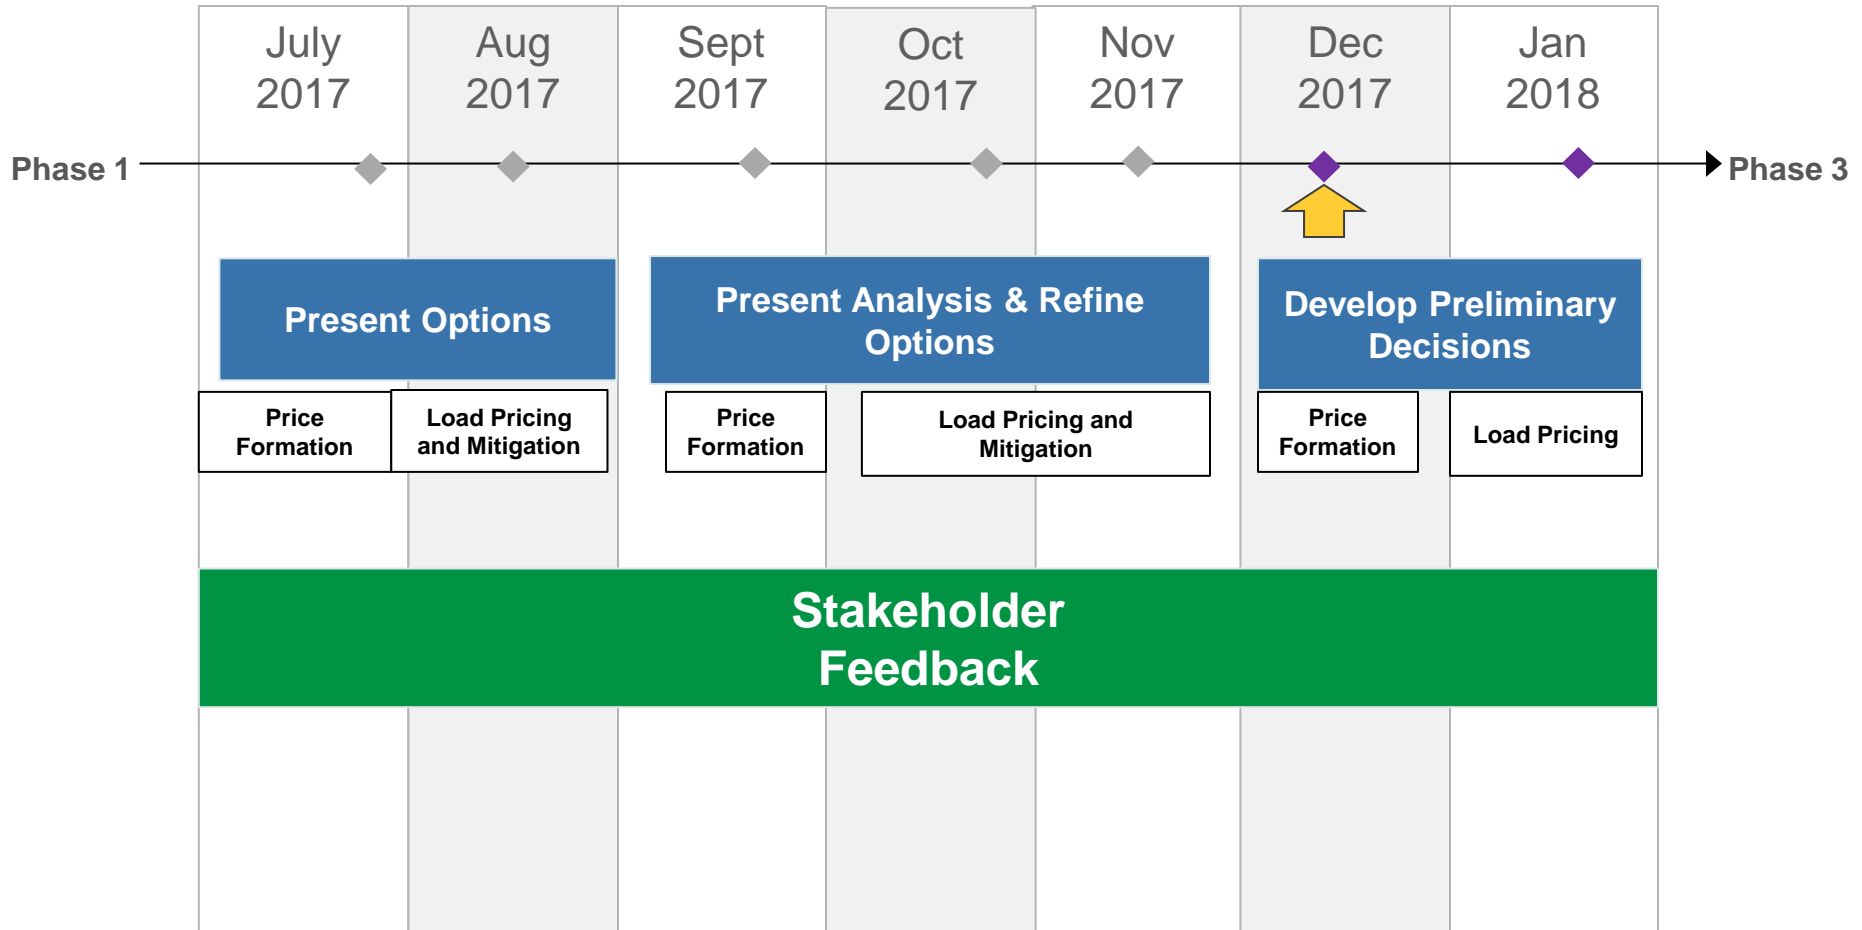

- SE Meetings will be the primary vehicle for design discussions
- In Phase 1 we will identify design elements, provide education, and define scope
- **In Phase 2 we will explore options for the design elements, provide analysis, as appropriate and develop preliminary decisions**
- In Phase 3 we will finalize decisions for all design elements and complete the HLD document
- Throughout this process we are looking for stakeholders to actively and collaboratively work with us on the design

# SSM Timeline

# Stakeholder Engagement Phase 2: Options

# Today's Objectives – Outcomes and Expectations

- The IESO will be presenting preliminary decisions on four more design elements
- The IESO requests that stakeholders ask clarifying questions, raise any immediate concerns and provide written feedback by Friday January 19<sup>th</sup>
  - Which violation and control action pricing decisions are of most interest to stakeholders?
