Subject: SSM Next Meeting January 30th

The next meeting for the Single Schedule Market engagement will take place on **January 30th** from **2pm-5pm**. The SSM session will focus on two main topics: (1) the IESO will review and discuss a proposal for load pricing and (2) intertie congestion pricing.

The meeting will follow the Demand Response Working Group (DRWG) meeting which is taking place at the same venue from 9am-1:30 pm that day. DRWG members and other interested stakeholders are welcome and encouraged to participate in the SSM meeting which may be of particular interest given the discussion on load pricing. Agenda and materials will be circulated closer to the meeting. Stakeholders can contact engagement@ieso.ca for further details and to register.

Regards,
IESO Engagement
