

## Exemption Applicant's Plan

The applicant is requesting that the exemption be granted for the lifetime of the metering installation. Therefore there is no plan that the applicant will become compliant with the obligation or standard to which the application relating to the secondary cabling not being in dedicated conduit or visually traceable. There will be no required modifications to equipment or facilities if this waiver is granted. The applicant estimates that no costs will be imposed on the IMO or any other market participant if the exemption is granted.
