Subject: Comments on Stakeholder Engagement Plan SE-57

Hydro One Networks' Comments on the Stakeholder Engagement Plan
SE-57 Embedded Generation

Hydro One submits that the stakeholder plan up to Activity 6 is adequate. Hydro One suggests that additional activities need to be added between Activity 6 and Activity 7. The additional activities should identify the process by which stakeholders will have the opportunity to review and provide comments on the proposed wording of the market rule amendments. The process should allow for all significant issues to be resolved before the proposed market rule amendments are submitted to the Technical Panel.

Hydro One intends to participate in the Stakeholder Engagement. Please contact David Kiguel at 416-345-5315 or David.Kiguel@HydroOne.com for further information.
