

## **Power Transformer Test Information**

- *Hydro One completed a search for Power Transformer Test Sheets*
- *Test Sheets for 85% of the Power Transformers requiring SSLAs have been found*
- *24% of these verified against the Hydro One PSDB - 95% accurate*
- *Areas of inaccuracy to date have little to no impact on SSLA calculation*
- *Over next few months, all test sheets found will be verified with PSDB*
- *PSDB will be corrected*
- *Depending on verification results, HONI and IESO will enter into a letter of agreement legitimizing the use of PSDB for SSLA calculations where test sheets are not found*
- *Plan to develop an SSLA report in PSDB*
- *Power Transformer Test Sheets are available on request.*
- *Contact Hydro One MSP at [MSP@hydroone.com](mailto:MSP@hydroone.com)*
