

# IT MEC Public Consultation

- **The IESO held a public consultation on whether to apply an IT MEC to legacy ITs that do not comply with 0.3 ANSI**
- **Three options given**
  - a. Full MEC applied
  - b. Partial MEC applied
  - c. No MEC applied
- **Excellent participation.**

# Results

- **Twenty two (22) organizations/individuals submitted a response. Some of these respondents represented other organizations that did not directly submit a response.**
- **Thirteen (13) respondents stated option c as their first choice**
- **Four (4) respondents stated option b as their first choice.**
- **One (1) respondent selected option a.**
- **The remaining four (4) respondents did not specifically select one of the options although their submission showed a tendency towards option c.**
- **All responses have been posted on the web site.**

# Results

- Of those with a stated option: 72% wanted option c, 22% option b, and 6% option a.
- When the IESO interprets the submitted option: 77% wanted option c, 18% option b, and 5% option a.
- Some of the option b participants wanted a delay in application.
- There was minimal support for option a with only one respondent.
- IESO presently proceeding to change the manuals to reflect option c.
