Subject: Next Inter-Jurisdictional Trading Standing Committee Meeting on June 2

This communication is being sent to all traders

We are re-scheduling the next Inter-Jurisdictional Trading Standing Committee meeting for **June 2** in the afternoon. We have recently found an anomaly with using the TLRe code for our pre-emptive curtailments during the TLR process - attached is a paper outlining the issue for your review prior to the meeting. In addition to this item, we have the following topics for the meeting:

- MISO Protocol Survey
- Bottled Energy process to determine the appropriate reason code when curtailing export transactions
- NISL Report from November 16/09 with recommendations
- ACE publishing
- Initiative list
- MR 370 - Limit Constrained-on CMSC Payments for Exporters and Dispatchable Loads

We will be posting a “formal agenda” and the meeting materials (presentations and initiative list) one week prior to the meeting. If you have any additional items you would like to add, please send an e mail to stakeholder.engagement@ieso.ca.

I apologize for any inconvenience the date change this may have caused.

Dave Robitaille
Chair
