

2024 IESO Grid Innovation Fund – List of Interested Parties Seeking Project Partners

The IESO's Grid Innovation Fund is issuing a targeted call for proposals focused on Electrification and Demand Management. The call will seek project proposals demonstrating how electrification can help address Ontario's growing electricity demand in the transportation and space and water heating sectors while maintaining grid reliability, affordability, and flexibility for ratepayers.

To support cross-sector collaboration and enhance the success of the call, the Grid Innovation Fund plans to publish a list of parties that are interested in collaborating on a project. This list will be published by the IESO as a resource so that prospective project proponents may be aware of and choose to contact any of the parties listed that are interested in a potential collaboration.

Please note, the IESO makes no representation, warranty or guarantee that parties who choose to collaborate as a result of this list will be selected for Grid Innovation Fund funding. All proposals will be evaluated and selected in accordance with the Grid Innovation Fund 2024 Proposal Guideline. The IESO has no obligation to publish this list and will include interested parties at its sole discretion.

If you would like to be included on the list of interested parties for the 2024 Grid Innovation Fund targeted call, please contact gridinnovationfund@ieso.ca with the following information by May 27, 2024:
