

Addendum No. 2
dated March 24, 2008 to the
Ontario Power Authority's Request for Qualifications
for Approximately 350 MW of Peaking Generation in Northern York Region
referenced as No. NYR RFQ-2008

In accordance with Section 2.3 of the NYR RFQ, this addendum contains clarifications to the NYR RFQ issued and posted on the Generation Procurement website <http://www.powerauthority.on.ca/GP/> on January 31, 2008, and subsequently amended by Addendum No. 1 on February 29, 2008. This addendum does not make any changes to the existing NYR RFQ, or place any additional burdens on potential RFQ Applicants with respect to responding to the NYR RFQ. As a result, the Qualification Submission Deadline will not be extended. Qualification Submissions are due as per the Timetable in Section 2.2 of the NYR RFQ.

For Clarification Purposes Only.

1. Reference Section 3.3.4, page 16:

Section 3.3.4.1 Company Experience

This requirement is meant to demonstrate the experience of the RFQ Applicant or its Control Group Member in planning and developing Designated Facilities.

Designated Facilities used to support this requirement must have been developed under circumstances where the RFQ Applicant or Control Group Member have had primary responsibility for such Designated Facilities, either as prime contractor for planning and development or as design/builder.

Section 3.3.4.2 Team Members' Experience

This requirement is meant to demonstrate the experience of the actual Designated Team Members in planning and developing and/or overseeing construction of Designated Facilities.

The experience of the Designated Team Members does not need to have been earned with the RFQ Applicant or Control Group Member.

2. Reference Appendix C and Appendix D

Applicant's Project ID No. and Applicant's Technical Solution ID No.

These two boxes on each form are meant as an aid to allow the RFQ Applicant to reference ***Multiple Proposed Projects or Technical Solutions*** as outlined in Section 2.4.1.2. If submitting Multiple Proposed Projects or Technical Solutions, please include the RFQ Applicant's internally chosen identification numbers on the forms to help clarify the submission. These numbers should then be referenced in the Executive Summary to help the Evaluation Team better understand the proposed Project.
