Capacity Accreditation for IESO – Date, October 22nd 2026

Feedback Provided by:

Name: Richard Laszlo

Title: Coordinator

Organization: CHP CAN

Email: [redacted]

Date: November 13, 2026

To promote transparency, feedback submitted will be posted on the Capacity Accreditation for IESO engagement page unless otherwise requested by the sender.

- ☐ **Yes – there is confidential information, do not post**
- X **No – comfortable to publish to the IESO web page**

Following the Capacity Accreditation for IESO October 22 2026, engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed. The presentation and recording can be accessed from the engagement webpage.

Note: The IESO will accept additional materials where it may be required to support your rationale provided below. When sending additional materials please indicate if they are confidential.

Please submit feedback to engagement@ieso.ca **by October 30th 2026.**

Transparency and Capacity Accreditation

Topic	Feedback
The IESO proposed three measures to provide transparency for stakeholders for use of the MRI capacity accreditation methodology. Are stakeholders supportive of these measures?	We have some follow-up questions / points of clarification regarding the calculation of Gas vs. CER-limited Gas MRI values. 1. Could you please provide some more detail on the calculations for Gas vs. CER-limited gas? 2. How are gas generators below 25 MW treated in these calculations? 3. Would gas generation facilities under 25 MW be assigned an MRI value corresponding to the gas (as opposed to CER-limited gas)? Members of CHP CAN would appreciate the opportunity to meet with the Capacity Accreditation team to discuss how smaller, distribution-connected facilities can contribute to Ontario's reliability needs.
Beyond the three measures proposed, is there anything else you would like to see from the IESO to support transparency on capacity accreditation?
