The final Niagara Region [Scoping Assessment Outcome Report](#) has now been posted, following the release of the Narrated Scoping Assessment presentation and the completion of a three-week public comment period. In addition, [responses to the feedback](#) received during the comment period have also been posted.

The report details the need for a coordinated regional planning approach and development of an electricity plan – Integrated Regional Resource Plan (IRRP) – for the Niagara electrical region.

Engagement will continue throughout the development of the plan with more details to follow. The [Niagara engagement webpage](#) continues to be a source of ongoing information related to these regional electricity planning activities, including any upcoming engagement opportunities.

The IESO looks forward to further engagement with communities and stakeholders on this electricity planning initiative. Visit our website to learn more about the Niagara Region or for more information about the [Regional Electricity Planning Process](#).
