Subject: Posting of Final Regional Planning Document for Niagara

The final Niagara Region Scoping Assessment Outcome Report is now [posted](#) following a two-week comment period.

The report details the need for a more comprehensive integrated regional resource plan (IRRP) and includes the terms of reference that outlines the timing and details of the work to develop a 20-year electricity plan for the region.

Engagement will continue throughout the development of the IRRP with more details to follow. The [engagement webpage](#) continues to be a source of ongoing information related to the Niagara regional planning activities, including any upcoming engagement opportunities. The IESO looks forward to continuing to engage with communities and stakeholders on this electricity planning initiative.

For more information about the regional electricity planning process, please visit <http://www.ieso.ca/en/get-involved/regional-planning/about-regional-planning/how-the-process-works>

To stay informed about electricity planning in Niagara, please [subscribe](#) for updates. To be part of a broader discussion on electricity matters and priorities in Southwest Ontario, [join](#) the IESO's Southwest Regional Electricity Network.
