

Capacity Auction Zone Table

Last updated: September 22, 2022

The Capacity Auction Zone Table has been developed to provide Capacity Auction Participants (CAPs) with an indication of IESO electrical zones in which stations in Ontario are located. It is intended to be used by CAPs participating with a distribution embedded physical resource, to assist these participants in determining the zonal location of their facility, and to facilitate the planning of their projects.

If you have any questions or comments regarding the Capacity Auction Zone Table, please email Capacity.Auction@ieso.ca.

Station Name	Electrical Zone
BRUCE A TS	BRUCE
DOUGLAS POINT TS	BRUCE
ALMONTE TS	EAST
