Are there any registry features missing from the proposed list, either basic requirements or future functionality?	Click or tap here to enter text.

CEC Product Offering Options

Topic	Feedback
Has IESO identified the right set of CEC product offerings? Are there any missing?	The CEC product offerings should not include additional 3rd party verification programs over which the IESO has no direct control. There is a wide variety of such "labeling" programs in place, all with purposes that extend beyond those of the proposed registry. Individual generators may chose to market such labeling separately or consumers may seek additional "values" (e.g. ESG), but this should not be the role of the CEC.

Topic	Feedback
Are there benefits/challenges to any of the proposed CEC product offerings that have not been covered?	Click or tap here to enter text.

CEC Customer Preferences Survey

Topic	Feedback
What are the most relevant findings from the CEC customer survey?	The response rate seems somewhat underwhelming. It would be helpful be better understand the breakdown of responses by sector.
