Following the February 23, 2024 engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed during the webinar. The webinar presentation and recording can be accessed from the [engagement web page](#).

Please submit feedback to engagement@ieso.ca by March 8, 2024. If you wish to provide confidential feedback, please submit as a separate document, marked "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

Bulk Transmission System Planning Overview

Topic	Feedback
What topics would you find most useful to include as part of the Bulk Transmission planning engagements?	Click or tap here to enter text.

Topic	Feedback
Are there other methods of engagement that would support your participation in bulk system plans?	Click or tap here to enter text.

Central-West Bulk Plan Update

Topic	Feedback
As we integrate the findings of the Central-West bulk study into upcoming broader bulk plans, are there any additional considerations we should be aware of?	Click or tap here to enter text.

General Comments/Feedback

We are concerned that the current project delivery method and the associated timelines for bringing significant power to a candidate site are too long, resulting in missed opportunities on industrial lands. Instead, that the IESO look at creating, or, if in existence, disclosing a progressive method of project delivery whereby private investment, that mitigates risk to general users, can expedite delivery to subject sites.

Aaron VanOorspronk, Director of Infrastructure and Development Services, Township of Southwold
