Subject: Update on CMSC Recovery for Dispatchable Loads

Good morning,

The IESO did not receive any stakeholder feedback following the October 27, 2020 Congestion Management Settlement Credit (CMSC) Recovery for Dispatchable Loads webinar. As a result, the IESO has proceeded to present the proposed market rule amendments for this proposed change at the January 19th Technical Panel meeting. Technical Panel members voted unanimously to post the proposed market rule amendments for stakeholder comment. Stakeholders can review the amendment [here](#) and provide comments by emailing engagement@ieso.ca by February 4.

Best regards,
Dale Fitzgerald
