Subject: ERP Storage Engagement Meeting - Materials Reminder
Date: February 3, 2026 4:00:09 PM
Importance: High

Good afternoon,

You are receiving this message as a registered participant for Thursday's ERP Storage project engagement session. As noted in the IESO Weekly Bulletin over the last few weeks, this upcoming ERP session will focus on four design memos that are part of the Phase 1, Batch 2 scope of the ERP Storage project design.

Design Memos for February 5, session:

- Connection and Registration
- Dispatch Data and Other Inputs
- Settlements
- Market Power Mitigation (MPM)

To prepare for the session, please review the design memos of interest to you and your organization that are available on the February 5th row on the [ERP Storage engagement webpage](#).

Also, please consider extending the meeting invitation to others in your organizations who may specialize or have an active role in managing these areas of focus. The link to register is also available on the engagement webpage.

Finally, please note that the IESO is conducting ongoing outreach with sector participants on the MPM design memo (with respect to Financial Reference Levels) and the Settlements design memo (with respect to Make-Whole Payments) that will be incorporated into a subsequent version of those memos for the next engagement session in Q2-2026.

As always, thank you for your active involvement and participation in this project design let us know if you have any questions.

Kind Regards,

Jason Grbavac
