Following the October 20, 2023 engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed during the webinar. The webinar presentation and recording can be accessed from the <u>Future Clean Electricity Fund</u> web page.

**Please submit feedback to** <u>engagement@ieso.ca</u> by **November 3,2023**. If you wish to provide confidential feedback, please submit as a separate document, marked "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

Торіс	Feedback
What challenges are you encountering in developing on-site generation?	Not understanding how the Government/ OPG would buy back energy produced by Biomass
Торіс	Feedback
What initiatives are you considering when you are trying to achieve the ESG goals?	Biomass

Торіс	Feedback
Are there any additional potential funding streams the IESO should consider?	Believe that biomass should be investigated more as the next opportunity for clean and sustainable energy for the province

Торіс	Feedback
Should any of the identified potential streams be recommended? Removed from consideration? If so, why?	Click or tap here to enter text.

### **General Comments/Feedback**

With crown land and forestry being a renewable resource, and the challenges contractors and sawmills we are faced with; from limited markets for undesirable fibre species, more pulp mills closing and not having a clear direction from the Government as to how we can present to large Hydro Users and clean energy option using Biomass. The crown forest management plans need to be considered by organization like IESO to help the forestry sector find solutions for the under-utilized fibre in our province under the limited market conditions that we are faced with today.
