Subject: Meeting Follow-Up: MRP Implementation - MPM Market Rules and Market Manuals (Sept 23)

Good afternoon,

Thank you to everyone who attended Thursday's webinar on the Market Power Mitigation (MPM) batch of market rules and market manuals and contributed to the Q&A portion of the meeting. If you were unable to attend live and are interested in hearing the discussion, the [meeting recording](#) is posted on the Implementation Engagement webpage.

Below is a follow-up to the action item that the IESO took at the meeting and a link to the MPM batch feedback form. If you have any further questions during these final few weeks of the stakeholder review period, please reach out through the engagement@ieso.ca inbox.

Follow-up: Market Rules for Appendix 7.1A and Appendix 7.2A

The IESO took an action item to provide a specific section reference to where the draft market rule amendments can be found for Appendix 7.1A and Appendix 7.2A. The amendment is under Chapter 7, Section 22.14.1.

The rule reads as follows:

22.14.1 The IESO shall, for *dispatchable resources*, apply a conduct test and impact test for *economic withholding* in any *dispatch hour* using *day-ahead market* and *real-time market reference levels* in the processes to determine *day-ahead schedules* and *pre-dispatch schedules*, respectively, as set out in Appendix 7.1A and Appendix 7.2A of the *market rules*.

This provision obligates the IESO to carry out ex-ante mitigation in the manner described in the cross-referenced appendices. These appendices will be the market rules that govern the day-ahead calculation engine and the pre-dispatch and real-time calculation engines and will be part of a future market rules amendment, in Q2 2022.

The integration of ex-ante mitigation into the calculation engines was discussed at the August 2021 stakeholder session on the MPM batch, as noted in the [presentation materials](#) and the [presentation recording](#).

Feedback Form

The IESO's [feedback form](#) is the best way to submit your written feedback. The form is compliant with the Accessibility for Ontarians with Disabilities Act (AODA) and using it will help ensure that we're able to transparently post your feedback on the IESO's website. **As a reminder, written feedback is due to engagement@ieso.ca by October 15th.**

Thank you,

Karlyn Mibus
