Subject: LT RFP Information Session for Indigenous Communities, October 21, 2022

Hello:

The IESO invites you to attend the next **Long-Term RFP virtual information session for Ontario Indigenous communities** on **October 21, 2022, 1 pm to 2 pm**. We'll have further information on what to expect from the next stages of the procurement process, and we'll be asking attendees for their input on how the IESO can support communities. The session will continue the dialogue that began earlier this year where we introduced the new initiative to develop a process to procure new supply facilities to meet Ontario's future electricity needs.

[Click here to register.](#)

Indigenous communities are integral to the success of the long-term procurement process. Thank you to everyone who attended our previous information sessions. We appreciate the feedback that was provided as it helps to inform the procurement design as well as outreach and engagement activities for the procurement. The IESO's response to the feedback can be found on the LT RFP [engagement webpage](#).

We look forward to continuing the dialogue at the October 21 information session. Please send any questions that you may have about this initiative to IndigenousRelations@ieso.ca.
