<p>What are your thoughts on the proposed Indigenous project participation concept, i.e. the rated criteria points? Are there any additional considerations?</p>	<p>The Métis do not reside in reserves in Ontario as other indigenous groups. We have non-rights bearing regions with citizens and elected councils as the Métis travelled around looking for work and usually settled on the fringes of towns.</p>
<p>What additional information do communities require to effectively participate in the LT1 RFP?</p>	
<p>Should Indigenous communities that are located near projects be provided with certain levels of Indigenous participation incentives versus communities that are not located near projects?</p> <p>If so, how should the Indigenous participation mechanism distinguish between local and non-local communities?</p>	<p>It should take into account citizens and elected councils of indigenous groups that reside close/in the community as they will receive economic benefit if they participate.</p>
