

Feedback Form

Long-Term 2 (LT2) RFP – May 23, 2024

Feedback Provided by:

Name: Katherine Sparkes

Title: VP, Grid Solutions

Organization: Enwave

Email: [REDACTED]

Date: June 7, 2024

To promote transparency, feedback submitted will be posted on the Long-Term RFP engagement page unless otherwise requested by the sender. If you wish to provide confidential feedback, please mark "Confidential".

Following the LT2 RFP May 23, 2024, engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed during the webinar. The webinar presentation and recording can be accessed from the [engagement web page](#).

Please submit feedback to engagement@ieso.ca by June 7, 2024.

LT2 RFP Energy + Capacity Streams

Topic	Feedback
Do you have any questions or comments regarding the clarifications the IESO provided regarding the targets, timing, eligibility or other details of the LT2 RFP Energy and Capacity streams?	

Long-Lead Time Resources Procurement

Topic	Feedback
Do you have any questions or comments regarding the clarifications the IESO provided regarding the targets, timing, eligibility or other details of the Long Lead Time Resources Procurement?	

MT2 RFP

Topic	Feedback
<p>Do you have any questions or comments regarding the clarifications the IESO provided regarding the targets, timing, eligibility or other details of the MT2 RFP?</p>	<ol style="list-style-type: none"> 1. Is the IESO contemplating separate streams in the MT 2 RFP for a) natural gas facilities; b) variable generators and c) combined heat and power (CHP) facilities coming off of IESO contracts during the 2027-2029 period? 2. Does the IESO envision that combined heat and power (CHP) facilities contracted through the IESO's CHP1 program and coming off existing contract with the IESO in the 2027 to 2029 period will compete in this MT 2 RFP? 3. If the IESO does anticipate that resources coming off existing IESO CHP1 contracts will participate in the MT2 RFP, what CHP-specific contract provisions is the IESO contemplating? 4. Will the "protected" Enhanced Power-Purchase Agreement (E-PPA) model be available to all proponents or only wind/solar generators? 5. Can resources be awarded both a capacity and an energy contract through MT 2 RFP?

LT2 RFP Preliminary Connection Guidance Follow-Up

Topic	Feedback
<p>Do you have recommendations for; addressing the previous feedback received; version 2 of the Guidance Document; and most specifically on the LT2 RFP capacity stream delivery approach the IESO is proposing.</p>	

E-PPA Revenue Model and E-PPA Energy Market Settlement Examples

Topic	Feedback
Do you have any questions or comments regarding the modified, “protected” version of the Enhanced Power Purchase Agreement (E-PPA) that the IESO has proposed?	

General Comments/Feedback

Thank you to the IESO team for the opportunity to provide input and questions.

Enwave looks forward to continuing discussions with the IESO on options to re-contract our London CHP facility – currently contracted under CHP1 until Dec. 30, 2028 – to ensure it can continue to contribute to the growing need for affordable, reliable electricity in southwestern Ontario and to supporting the thermal energy needs of our district energy customers.
