Following the LT2 RFP May 21, 2025, engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed. The presentation and recording can be accessed from the LT2 engagement web page.

Note: The IESO will accept additional materials where it may be required to support your rationale provided below. When sending additional materials please indicate if they are confidential.

Please submit feedback to engagement@ieso.ca by May 29, 2025.

Post-Proposal Applicable Tariffs

Do you have any comments related to the approach to mitigating the risk of Post-Proposal Applicable Tariffs presented during the webinar?

Gas Turbine Delivery Delay Provisions

Do you have any comments related to the approach to handling potential delays in the delivery of gas turbines presented during the webinar?

Crown Land Site Report and MNR Confirmation Letter

Do you have any comments related to the CLSR and MNR Confirmation Letter requirements presented during the webinar?

We have assumed that AORs (and not LUPs or a lease) will suffice to demonstrate necessary land access rights at bid submission; please confirm. In addition, if there is any conflicting land interest claim on a proposed project site (*e.g.*, conflicting mining claim) at proposal submission, will this impact the IESO's consideration of whether there are necessary land access rights? In other words, can a proponent resolve these conflicts following proposal submission?

LT2 RFP Deliverability Update

Do you have any comments regarding the deliverability guidance updates presented during the webinar?
