The Independent Electricity System Operator (IESO) is seeking feedback from participants on the draft Long-Term Request for Qualifications (LT1 RFQ). The LT 1 RFQ will seek to ensure that interested parties have the capability to undertake project development for the LT1 RFP and will seek to evaluate applicants both on corporate experience and employee experience.

The draft LT1 RFQ can be found on the [Long-Term RFP webpage](#).

Please provide feedback by March 31, 2022 to engagement@ieso.ca.

Please use subject header: *Draft Long-Term 1 RFQ*. To promote transparency, this feedback will be posted on the [Long-Term RFP webpage](#) unless otherwise requested by the sender.

The IESO will work to consider and incorporate comments as appropriate and post responses on the webpage.

Thank you for your contribution.

General Comments/Feedback

As stated in our feedback to the March 10, 2022 webinar, Evolgen generally supports the mandatory participation requirements to ensure that rewarded projects can be constructed on time and delivered successfully. In addition, we wish to reiterate that the deliverability test criteria, given that they are not included in the RFQ itself, should be stakeholdered and publicly discussed as early

as possible. In particular, as the IESO requires distributors and transmitters to provide a number of connection details and information on behalf of developers, the IESO should involve the distributors and transmitters in the stakeholdering process immediately. It would be unfortunate if information required by the IESO from third-parties caused delays or roadblocks in the RFP process.
