Date: August 19, 2022

Following the August 10th public webinar on the Long-Term RFP, the Independent Electricity System Operator (IESO) is seeking feedback from participants on: the LT1 RFP design and key updates presented in the meeting, Contract Design, Upgrades, and the Deliverability Test Guidance Document.

The referenced presentation can be found on the Long-Term RFP webpage.

Please provide feedback by August 22, 2022 to **engagement@ieso.ca**.

Please use subject header: ***Long-Term RFP***. To promote transparency, this feedback will be posted on the Long-Term RFP webpage unless otherwise requested by the sender.

The IESO will work to consider and incorporate comments as appropriate and post responses on the webpage.

Thank you for your contribution.

LT1 RFP Design and Key Updates

Topic	Feedback
Please provide any general feedback on the LT1 RFP design and the key updates provided by IESO in the meeting.	LT1 RFP Design: As mentioned in previous comments by other organizations, the proposed 600 MW maximum project size could potentially result in only a few projects being awarded. As such, the IESO should consider reducing the Maximum Project size from 600 MW to 200 MW, as this would: • Reduce exposure to failure of any one project by diversifying supply and location of projects • Provide a greater opportunity for proponents to see their projects being selected • Provide an incentive for proponents to invest the development capital if the chances of being selected are greater

Proposed Contract Design

Topic	Feedback
Please provide any feedback on the contract design and provisions proposed by the IESO.	

Proposed Upgrades Process

Topic	Feedback
Please provide any feedback on the proposed design and other considerations with respect to the Same Technology Upgrades procurement process.	Can you confirm that Facilities that have an MTI Contract will be eligible to submit a proposal in the Same Technology Upgrade Procurement Process

Deliverability Test Guidance Document

Topic	Feedback
Please provide any feedback on the Deliverability Test Guidance Document and associated form.
