

# Feedback Form

## Long-Term RFP – March 28, 2023

### Feedback Provided by:

Name: Garry Spence

Title: President

Organization: EverGreen Energy Corp

Email: [REDACTED]

Date: April 5, 2023

Following the March 28<sup>th</sup> public webinar on the Long-Term RFP (LT1 RFP), the Independent Electricity System Operator (IESO) is seeking feedback from participants on design of the LT1 RFP and LT1 Contract.

The referenced presentation can be found on the [Long-Term RFP webpage](#).

**Please provide feedback by April 11, 2023 to [engagement@ieso.ca](mailto:engagement@ieso.ca).**

Please use subject header: *Long-Term RFP*. To promote transparency, this feedback will be posted on the [Long-Term RFP webpage](#) unless otherwise requested by the sender.

The IESO will work to consider and incorporate comments as appropriate and post responses on the webpage.

Thank you for your contribution.

## LT1 RFP Design and Lessons Learned from E-LT1 RFP

| Topic   | Feedback   |
|---|--|
| E-LT1 RFP: Please provide any general feedback reflecting on your participation in the E-LT1 RFP as it relates to the upcoming LT1 RFP. | Your E-LT1 RFP presentation and information was very well done. What is happening throughout our world is changing and we need to work together in HARMONY for a cleaner and safer world for our kids and seniors and everybody in between. We provide Waste-to-Energy systems that are customized to best use waste and dead and dying trees to significantly reduce carbon and the cost of energy in remote communities and attached to hospitals to provide them with clean safe power when power goes out in their area. |
| LT1 RFP design: Please provide any feedback on the proposed Mandatory Requirement for Municipal Support.                                | We need to learn more about your proposed Mandatory Requirement for Municipal Support. Each and every location has different energy needs and we are prepared to work with others to work together in HARMONY for a cleaner safer power environment at each and every location.  |
| LT1 RFP design: Please provide any feedback on the Rated Criteria Categories and Point Allocation.                                      | We are still learning, thank you!  |

## Indigenous Community Participation

| Topic  | Feedback  |
|--|---|
| Please provide any feedback on the Rated Criteria for Indigenous Community Participation as contemplated in the E-LT1 RFP as it relates to the upcoming LT1 RFP. | We have our Waste-to-Energy systems that can be customized to best serve each and every Indigenous northern community, but we are finding it very difficult to make contact with the decision makers. Can IESO help us work with the Indigenous communities to provide the electricity and heat they need, which will be carbon free. |

## Proposed Contract Design: General Feedback

| Topic  | Feedback  |
|--|---|
| <p>Please provide feedback on any contract provisions you wish to comment on.</p> <p><i>Note: the commercial structure/ revenue model for the LT1 Contract will not be modified from that which was used under the E-LT1 Contract.</i></p> | <p>We have the needed clean safe power systems that are customized to best use about 35% of the communities MSW (municipal solid waste) so we can provide their needed electricity and heat. About 55% of their MSW can be converted into a quality compost to help the communities to grow some of the own vegetable on the land or inside containers in the far northern clients.</p> |

## General Comments/Feedback

This book has not been written and it is a pleasure to work with IESO to develop new and needed methods to provide clean safe electricity and heat, while decarbonizing each community. We have to work together in HARMONY to protect our kids and seniors and everybody in between.
