Subject: LT1 RFP Inquiry

Hello,

I hope you are well. Thank you for the engagement session last week. I am reaching out with the following inquiries regarding the upcoming LT1 RFP:

1. The proponent is a qualified applicant in the Small-Scale category but has a couple sites for Large Scale Projects. In the engagement session last week, there was mention that if the proponent provides extra security fees they can bid Large Scale Projects. Can you please kindly confirm or consider this option and advise if there is any other information available for this situation.
2. For the 1,600 MW allocated to storage, will/can there be an amount set aside or directly allocated to Small Scale Projects?

Thank you in advance.

best,

Mila Simon

Project Coordinator
