Subject: Regional Electricity Planning in North & East of Sudbury – Webinar on September 27

The IESO will host a second public webinar on September 27 at 1:00 p.m. to provide an update on the development of an electricity plan – Integrated Regional Resource Plan (IRRP) – for the North & East of Sudbury region. This session will provide an overview of and seek input on detailed electricity needs to help inform potential solutions. Webinar materials will be available in advance and written feedback will be collected until October 19. [Register](#) to participate.

The first public webinar held on [March 31](#) sought input on key local developments, projects, and initiatives to help inform the electricity demand forecast that determines how much electricity is needed in the North & East of Sudbury Region over the next 20 years. For additional details on this engagement initiative, presentation materials, recorded meetings, feedback received, and IESO responses, please visit the North & East of Sudbury engagement [webpage](#).

Thank you,
