Subject: Regional Planning Process Review Stakeholder Engagement Concluded

Thank you to all stakeholders who participated in the February 22 Regional Planning Process Review engagement webinar and for those who provided feedback on the materials presented. The IESO has summarized the feedback provided with a corresponding IESO response in a document that is now posted on the [engagement webpage](#). In addition, a Final Engagement Summary Report is now posted on the engagement webpage which summarizes engagement activities that took place through this engagement forum since the engagement launched in May 2018 to its conclusion. With the posting of these documents and the Final Report, this engagement is now concluded. The IESO would like to thank all stakeholders and Regional Planning Review Advisory Group members for the support and input provided throughout this review process. As indicated in the documents posted referenced above, the IESO looks forward to continue working with stakeholders through other engagement activities and will aim to provide an update on implementation of the recommendations contained in the Final Report in Fall 2021 as part of future planning-related engagement activities. All materials related to this initiative will continue to be available on the engagement webpage under the [Completed Engagements](#) section of the IESO website.

Best regards,

Dale Fitzgerald
