Subject: Market Rule Updates to Performance Requirements Webinar, March 31

This message is being sent to Primary and/or Applicant Representative Online IESO contacts at market participant organizations that may have an interest in this stakeholder engagement.

Good morning,

The IESO would like to notify all relevant market participants of next week's webinar to begin discussing proposed draft market rule changes to the performance requirements specified in Market Rule Appendices 4.2 and 4.3. In addition to aligning performance requirements with how on-site validation is conducted, these updates aim to:

- Improve the performance of distributed energy resources
- Clarify the performance requirements for inverter-based resources
- Bring the IESO market rules up to speed with NERC PRC-024-3 and CSA 22.3 no.9 standards

A webinar will be held on March 31 from 10 to 11:30 a.m. to discuss the proposed updates. Registration is [online](#). More information, is available on the [engagement web page](#).

We encourage all stakeholders who may have an interest in these market rule updates to review the webinar presentation, which will be posted to the engagement web page by end of day today, and participate in the webinar on March 31. If you have any questions, please email engagement@ieso.ca.

Thank you,
IESO Engagement
