Transfer of Exemption Approved as of December 5, 2025

### PART 3 – REQUEST TO TRANSFER EXEMPTION

1. Please specify the date on which the proposed *exemption* transferee will take ownership of the *facilities* or equipment that are presently the subject of this *exemption*.<sup>1</sup>

Date: Effective immediately.

2. Please provide, in reasonable detail, the reason for the proposed transfer.

This transfer request pertains to Exemption #01-1249 which granted an exemption from Market Rules Chapter 6, subsections 2.1.1.1 and 2.1.1.3, which require that a metering installation contain conforming meters and instrument transformers that meet or exceed the 0.3% ANSI accuracy class, respectively. The exemption is for the lifetime of the High Current Lab facility located at the Kipling Complex site. This metering point is the last remaining point of supply from the IMO-controlled grid to the Kipling facility.

Ontario Power Generation Inc. (OPGI) sold the Kipling Complex site to Kinectrics Kipling Inc. on October 31, 2022. Only the building ownership has changed and Kinectrics Kipling Inc. has confirmed that there are no material changes to the facility and the exemption remains valid.

Transfer of Exemption Approved as of December 15, 2025

<sup>1</sup> Note: Section 4.4 of the Exemption Application and Assessment Procedure provides that where an *exemption* does not set out the conditions of transfer or where *IESO* staff concludes that those conditions have not been met and an *exemption applicant* intends to sell, assign, lease, transfer control or otherwise dispose of equipment or *facilities* that are the subject-matter of an *exemption*, then the transfer request will require Panel approval. *IESO* staff will prepare a staff recommendation considering the nature of the request, the considerations set out below and the criteria in section 3.2.4.

## PART 4 – SUBMISSION IN SUPPORT OF REQUEST TO TRANSFER EXEMPTION

The *IESO* considers applications to transfer *exemptions* based on a number of criteria set out below, as specified in Section 4.4 of the Exemption Application and Assessment Procedure. The following submission should respond to the criteria below. Responses may be included either as attachments or in the space provided below:

- whether the transfer meets the applicable conditions set forth in the *exemption* (other than the conditions relating to transfer) and whether the transfer would affect the ability of the proposed transferee to comply with all of the conditions of the *exemption*;
- whether the proposed transferee is a *market participant* or undertakes in writing to the *IESO* to apply for authorization as a *market participant*;
- whether the *exemption applicant* and the proposed transferee undertake in writing to the *IESO* to provide such information and documentation as may be required by the *IESO* to reflect the transfer (such as information pertaining to the registration of the equipment or *facilities*);
- whether the extent to which the transfer of the *exemption* will impact the timely implementation of the plan to become compliant with the exempted obligation (such plan may be the *exemption* plan, modified as required by the Panel as part of the terms and conditions of the *exemption*); and
- whether the transfer of the *exemption* raises significant incremental concerns regarding:
  - the ability of the *IESO* to direct the operations and maintain the *reliability* of, or ensure non-discriminatory access to, the *IESO*-controlled grid;
  - the ability of the *IESO* to operate the *IESO*-administered markets in an efficient, competitive and reliable manner;
  - the capability of either the proposed transferee or party acquiring control of the *exemption applicant* to operate the *facility* or equipment that is the subject matter of the *exemption* consistent with the conditions of the *exemption*; or
  - the costs borne by the *IESO* or other *market participants* above and beyond those that exist in respect of the *exemption applicant* and that cannot be adequately addressed with an amendment to the conditions of the *exemption*.

### Submission Information:

**Kinectrics Kipling Inc. (KKI) has kept the same infrastructure and meters from when OPG were owners. The High Current Lab facility in KL Building is still operational. There should not be any impact from Transferring the Exemption from OPG to KKI.**
