Subject: IESO Webinar | GTA East Regional Planning
Date: August 25, 2026 9:55:24 AM

Regional electricity planning continues to advance in the GTA East region to ensure a reliable supply of electricity and support local growth and economic development. The GTA East region extends from Lake Ontario northward to the southern parts of Scugog and Uxbridge, and includes the municipalities of Pickering, Ajax, Whitby, Oshawa and parts of Clarington within Durham Region.

An Integrated Regional Resource Plan (IRRP) is being developed to address the region's unique needs and will consider a range of options and resources to meet future electricity demand. Your input will help inform all aspects of this process. On **Monday, September 14 from 10:30 a.m. to 12:00 p.m.**, the IESO will host a webinar to share the detailed options analysis and seek input on the draft recommendations to meet this region's electricity needs. [We encourage you to register in advance.](#)

Materials, including the presentation and feedback form, will be available in advance of the webinar, and written comments will be accepted until **Monday, October 5**. Visit our website to learn more about the [GTA East Region](#) and the [regional electricity planning process](#). All interested parties are invited and encouraged to participate including, but not limited to, Indigenous communities, local municipalities, businesses, stakeholders and members of the general public.

Sincerely,
Jessica Singh
