

Feedback Form

Regional Electricity Planning in the GTA West Region – August 20, 2026

Feedback Provided by:

Name: David Twigg

Title: Director of Planning Policy

Organization: Town of Milton

Email: [REDACTED]

Date: August 21, 2026

To promote transparency, feedback submitted will be posted on the GTA West region [engagement webpage](#) unless otherwise requested by the sender.

Following the GTA West regional planning webinar held on August 20, 2026, the Independent Electricity System Operator (IESO) is seeking feedback on draft Integrated Regional Resource Plan (IRRP) recommendations for the region. A copy of the presentation as well as recording of the session can be accessed from the [engagement webpage](#).

Please submit feedback to engagement@ieso.ca by September 4, 2026.

Topic	Feedback
What feedback is there on the detailed options analysis?	Please confirm whether the new Milton TS will involve land outside the existing hydro corridor. Please advise whether additional 500 Or 230kV transmission lines will be needed within or adjacent to the existing hydro corridor. If so, how many additional lines are planned?

Topic	Feedback
How can the IESO continue to engage with communities and stakeholders as these recommendations are refined?	By sharing all available information and studies at the earliest opportunity. By engaging with all affected landowners.

General Comments/Feedback

Please provide an update on the Parkway Belt Transmission Corridor Study and next steps, including the expected release of the refined/focussed study area.

Please advise how the Integrated Regional Resource Plan will either inform or be informed by the recently announced Provincial Data Centre Playbook, particularly where projects compete for scarce electricity capacity or broader provincial priorities need to be considered.
