This project needs to make sure that there is no pause between Phase 1 and phase 2 parts of the project. As well as the Training of the indigenous workers who will be trained. What happened with the East West Tie was big mess. Workers from out of province had to be brought in.

The Human rights issues that will happen with the work camps that will be put in place. Then the Human trafficking that is seen in all the large work camps. This needs to be prepared for and a means to protect Sex workers among other workers who maybe not there by choice.

Note: This feedback is being submitted in response to the webinar held on November 3 for the NW IRRP engagement initiative. To promote transparency, feedback submitted will be posted on the Northwest Regional Electricity Planning [engagement webpage](#) unless otherwise requested by the sender.

Visit the [engagement webpage](#) for more information.
