Topic	Feedback
What additional information should be considered as part of the Scoping Assessment?	Can the IESO get any more granular about South GBay/Muskoka on the sub-regions that both need (demand vs supply, most desirable) and have topline feasibility for energy generation (large electrical trunks/source)

Topic	Feedback
What additional considerations, informed by local developments, should be taken into account for the areas identified as needing further analysis?	In the LT2 RFP process, a large area south east of Georgian Bay was identified on the map as not feasible, or not desirable-can you elaborate on this please?
What other areas or specific considerations should be examined through regional planning?	Click or tap here to enter text.
