Subject: Final Planning Documents Posted for Toronto Region

The final Toronto Scoping Assessment Outcome Report is now [posted](#). The Report details the need for a coordinated regional planning approach and development of an electricity plan – Integrated Regional Resource Plan (IRRP) – for the Toronto region.

The Toronto Regional Electricity Planning [engagement webpage](#) is the source of information related to these regional electricity planning activities, including the feedback received following the February 16 engagement webinar along with the [IESO's response to the feedback](#). (Note that supplemental feedback was received and posted; the IESO will prepare an updated response to this feedback in due course.) The IESO looks forward to further engagement with communities and stakeholders on the development of IRRP for the Toronto region.

For more information about the regional electricity planning process, please visit <http://www.ieso.ca/en/get-involved/regional-planning/about-regional-planning/how-the-process-works>

To stay informed about electricity planning in Toronto, please [subscribe](#) for updates.
