The 2025 Toronto Integrated Regional Resource Plan (IRRP) has now been posted to the [Toronto Regional Planning engagement website](#), and the IESO's response to feedback received following the September 25 public engagement webinar. The report details several plan recommendations that together form an integrated approach that will improve reliability and resilience, while meeting Toronto's growing electricity needs.

The IESO thanks all participants for their continued engagement throughout the development of the Toronto IRRP.

Sincerely,
IESO Regional & Community Engagement
