Ron Collins (Energy Related Businesses and Services)	Recommend I recommend MR-00449 Clarifications to Market Rules (Omnibus) to the IESO Board for consideration based on the following rationale: The proposed amendments to the IESO Market Rules in part correct elements which level the playing field for all Market Participants thus enhancing a competitive Market in Ontario. The amendments further clarify specific definitions while adapting specific standardized definitions employed in the North American market increasing clarity for Market Participants. The proposed amendments benefit the operations of Ontario based assets in both the Ontario and North American Markets.
