Provide a brief description that includes some or all of the following points:

- The reason for the proposed amendment and the impact on the *IESO-administered markets* if the amendment is not made.
- Alternative solutions considered.
- The proposed amendment, how the amendment addresses the above reason and impact of the proposed amendment on the *IESO-administered markets*.

Summary

The IESO proposes to update the market rule amendment process specified in Chapter 3, section 4 of the market rules.

The updates will clarify the rule amendment process to better reflect the way in which the processes operate based on current practices and as specified in the Technical Panel's Terms of Reference (ToR).

Background

As part of the review of the ToR in 2025, the IESO committed to taking a longer-term review of Ch.3 s.4 of the market rules to clarify the rule amendment process. This was a result of a Technical Panel member request that the IESO consider whether there was a misalignment between the ToR and the market rules – in particular, whether the “deemed warrants consideration” provision in the ToR aligns with the market rules.

The IESO acknowledged that there was an opportunity to provide greater clarity in the rules, and to more holistically take a broader look at the rule amendment process in Ch.3 section 4 which has not been meaningfully updated since market opening.

Discussion

Please see the accompanying “Summary of Changes” document for a detailed description of the changes.

Chapter 3

4. Market Rule Amendments

4.1 Introduction and Interpretation

- 4.1.1 This section 4 sets forth the procedures pursuant to which *amendments* to the *market rules* may be made by the *IESO* and embodies the mechanism for review of the *market rules* for purposes of the application of subsection 35(4) of the *Electricity Act, 1998*.
- 4.1.2 This section 4 must be read and construed subject to the *Governance and Structure By-law*.

Note: Sections 4.2 to 4.12 of the existing MR Ch.3 s.4 would be deleted in their entirety. The revised Sections 4.1 to 4.11 are shown without tracked changes for ease of review.

4.2 Initiating a Market Rule Amendment or Review

- 4.2.1 Any interested party may initiate an *amendment* or review of the *market rules* by filing a written submission (the "*amendment submission*") with the *IESO*. The *amendment submission* shall include a statement of the reasons why an *amendment* to, or review of, the *market rules* may be necessary or desirable.
- 4.2.2 The *IESO* may initiate an *amendment* of the *market rules* by preparing an *amendment proposal* following a stakeholder engagement of the proposed *amendment*.
- 4.2.3 The *IESO* shall provide the *technical panel* with any *amendment submission* or *amendment proposal* for the *technical panel's* review and consideration.
- 4.2.4 At any time during its review or consideration of an *amendment submission*, the *technical panel* may request further particulars with respect to the proposed *amendment* from the submitting party and may invite *market participants* or other interested persons to make written submissions regarding the proposed *amendment*.
- 4.2.5 The *technical panel* may schedule and hold meetings with *market participants* and any other interested person to discuss an *amendment submission* under its review. In such cases, the *technical panel* shall advise the *IESO Board* of the date, time, and place scheduled for the meeting, and provide notice of same to *market participants* and to any person who filed written submissions. Any *market participant* or other interested person may attend and, at the discretion of the *technical panel*, participate in any such meetings.

4.3 Warrants Consideration Determination

- 4.3.1 Following the receipt of an *amendment submission* under section 4.2.1, and any steps taken under sections 4.2.4, and 4.2.5, the *technical panel* shall consider the *amendment submission* and any related written submissions to determine whether the matter is:
- 4.3.1.1 of such a nature that consideration of the *amendment submission* is warranted and, in which case, the extent of the consultation that the *technical panel* intends to take with *market participants* and other interested persons in the consideration of the *amendment*;
 - 4.3.1.2 of such a nature that a clarification or interpretation of the applicable *market rule* is warranted, in which case the *amendment submission* shall be dealt with in accordance with the provisions of MR Ch.1 s.12;
 - 4.3.1.3 a *minor amendment*, in which case the *technical panel* is not required to comply with any requirements of section 4.4; or
 - 4.3.1.4 of such a nature that no consideration of the *amendment submission* is warranted.

In all cases, the *IESO* will provide notice of this decision to the *IESO Board* and the person who submitted the *amendment submission*.

- 4.3.2 Notwithstanding anything in section 4, the following are deemed to warrant consideration:
- 4.3.2.1 proposed *amendments* that reflect a market design developed through an *IESO* stakeholder engagement initiative;

- 4.3.3 Where a proposed *amendment* warrants consideration, the *IESO* shall *publish* the *amendment submission* and any related comments from the *technical panel*. It will notify all *market participants* and any person who made the *amendment submission*.
- 4.3.4 Where a proposed *market rule amendment* relates to or may affect any provision of section 2, the *IESO* shall consult with the *secretary* of the *dispute resolution panel* before the *technical panel* conducts its first vote in connection with the *amendment submission* or *amendment proposal*.
- 4.3.5 Where a proposed *market rule amendment* relates to or may affect any provision of section 3, the *IESO* shall consult with the Chair of the *market surveillance panel*

before the *technical panel* conducts its first vote in connection with the *amendment submission* or *amendment proposal*.

- 4.3.6 Notwithstanding the foregoing, the *IESO Board* may direct the *technical panel* to further consider or cease considering a proposed *amendment* at any time.
- 4.3.7 Where a proposed *amendment* warrants consideration under sections 4.3.1 or 4.3.2 the *IESO* will prepare an *amendment proposal* regarding the proposed *amendment*.

- 4.4.1 The *technical panel* must convene to vote whether to *publish* an *amendment proposal* for stakeholder comment.
- 4.4.2 If the *technical panel* votes to post the *amendment proposal* in accordance with section 4.4.1, the *IESO* shall:
 - 4.4.2.1 *publish* the *amendment proposal* and give notice to all *market participants* and to any person who made the *amendment submission* or written submission to which the proposed *amendment* relates. The notice and *publication* shall invite *market participants* and other interested persons to make written submissions to the *technical panel*.
 - 4.4.2.2 *publish* all non-confidential stakeholder feedback received on the *amendment proposal* and an *IESO* response document explaining how such feedback was considered in the proposed *amendment* presented to the *technical panel*.
- 4.4.3 The *technical panel* may elect not to *publish* an *amendment proposal* for stakeholder comment if it determines, on unanimous vote, that there have been sufficient prior opportunities for stakeholders to review and provide comment.
- 4.4.4 Unless otherwise determined by the *technical panel*, a *minor amendment* is not required to be *published* for stakeholder comment or review.
